

# Gated **Communities & Residential Estates**

Step into your tomorrow. . .

### GATED COMMUNITY & RESIDENTIAL ESTATE SOLUTIONS

#### DID YOU KNOW:

- The average user spends 23 hours a week online?
- Majority of new developments are equipped with at least Wi-Fi for residents?
- Voice and data capability increases property value up to 12%?
- By 2018, as file sizes grow, your connection will determine if you stay connected to multi-media and social media?
- A significant number of individuals aged under 45 see communication infrastructure as a necessity?

## Technology at work for you

### CONNECTING YOUR RESIDENCE TO THE TECHNOLOGY RESOURCES YOU NEED

AReS Africa will partner with your gated community and offer personalized beginning to end voice and data solutions.

Worried about slow ADSL/VDSL? Poor reception? Lack of advice? Limited options? Bad service? Excessive pricing? After sales abandonment? Worry no more. AReS Africa's Gated Community & Residential Estate Solution is one of its kind.

## flexible solutions for all resident's needs

AReS Africa uses next generation fibre optic network of Neotel

#### CONNECTIVITY OVER:

##### FIBRE

- ◇ Future proof technology
- ◇ Superior fibre network
- ◇ Higher speeds
- ◇ Uncapped internet
- ◇ Low contention
- ◇ Dedicated line
- ◇ Not susceptible to theft
- ◇ Weather damage resistant
- ◇ Single point of contact
- ◇ Dedicated personal service
- ◇ IP telephony

##### ADSL/VDSL

- ◇ Aged technology
- ◇ Outdated copper network
- ◇ Slower speeds
- ◇ Uncapped available
- ◇ High contention
- ◇ Unstable line
- ◇ Susceptible to theft/breaks
- ◇ Weather damage issues
- ◇ Call center contact
- ◇ Poor service history
- ◇ Analogue telephony

Neotel has a 100% optic fibre backbone with capacity in terabytes which means it is future proof technology with carrier grade unlimited bandwidth capacity.

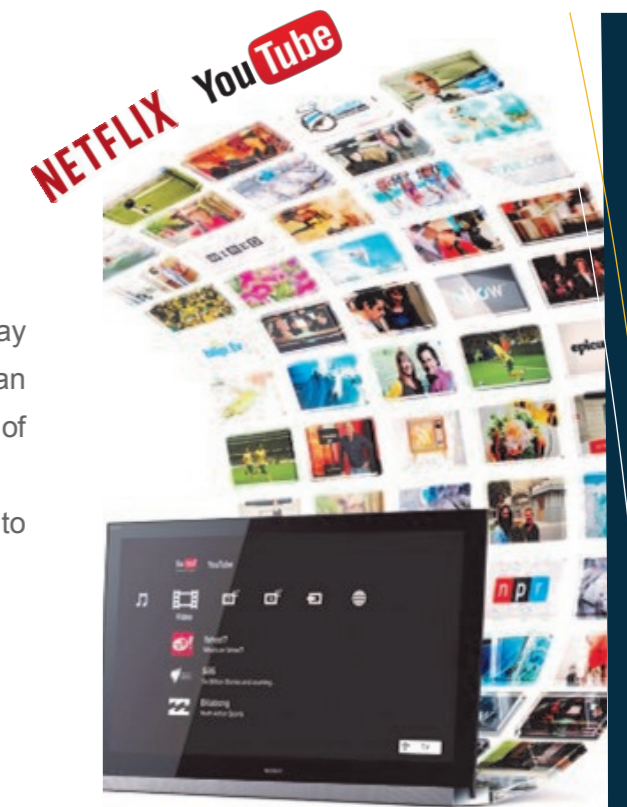

AReS Africa combines next generation Neotel **fibre optic infrastructure** with international state of the art Calix GPON **hardware** to create an unmatched beginning to end **integrated managed estate solution.**

As a gated community it is imperative that you stay abreast of technological changes and human preferences to protect and maintain your standard of living and investment.

AReS Africa brings easy and reliable communication to all:

- Once-off infrastructure (owned by estate)
- Resident usage management
- Monthly line rental (leading fibre technology)
- Service Level Agreement
- After sales support

**AReS Africa provides tailor made beginning to end voice and data solutions**

#### WHY UPGRADE TO FIBRE?

- ✓ Free phone calls inside the estate between family, friends, domestics
- ✓ Have sufficient uplink and downlink internet bandwidth to work and play
- ✓ Allow guests to your home easily with facial recognition technology from the guard house to your smart phone
- ✓ Stream live video without interruptions: as companies Ster-Kinekor and Multichoice embark on a journey to bring live streaming to our homes together with preferred streaming channels such as Netflix, make IP TV a next generation experience with high speed internet
- ✓ Live online gaming for the competitive children to enjoy
- ✓ An opportunity for home owners to increase their investment
- ✓ Long term partnership with AReS Africa offering cradle to grave service including after sales support
